

Missing Numbers

Missing number at the end?
It's so simple, my friend.

$12 + 13 = \underline{\hspace{2cm}}$

$8 + 12 = \square$

$17 - 15 = \square$

$5 + 10 = \square$

$10 - 5 = \square$

$14 + 4 = \square$

$16 - 7 = \square$

$10 + 7 = \square$

$19 - 11 = \square$

$4 + 11 = \square$

$14 - 9 = \square$

$11 + 9 = \square$

$20 - 10 = \square$

Missing Numbers

Missing number at the end?
It's so simple, my friend.

$12 + 13 = \underline{\hspace{2cm}}$

$38 + 12 = \square$

$57 - 15 = \square$

$45 + 40 = \square$

$60 - 25 = \square$

$64 + 14 = \square$

$46 - 37 = \square$

$40 + 27 = \square$

$79 - 41 = \square$

$21 + 37 = \square$

$24 - 19 = \square$

$72 + 19 = \square$

$80 - 59 = \square$
